

CONTROL SYSTEM ONLY

MEMORANDUM FOR: Director of Computer Services

SUBJECT : Questions for BOB Hearing

INFORMATION PROCESSING AND EXPLOITATION

1. ADP - The Bureau is very interested in learning the CIA views on the advantages/disadvantages of placing the various Washington-area computer capabilities under a "single manager." As an example, recent advances in computer technology (such as controlled access to privacy files) would seem to reduce, if not eliminate the need for a separate ADP function supporting the Clandestine Services.

2. Signal Processing/Analysis - Bureau staff will be reviewing the needs for the substantial increase requested for processing and analysis of signal data and, in particular, the requirements for "new and different analysis" of data from systems such as

Remarks:			
These are the questions which BOB has indicated will be asked at the hearings this fall. Although the hearings were to have been near the end of this month, we have firm indication that at least some will begin 16 and 17 October. It will be well to prepare answers to these questions as soon as possible.
